Alert screen:
When user taps alert icon, this screen is displayed. User can see all current and upcoming alerts for each transport type.

Top menu (yellow means selected):
Current: shows current alerts.
Upcoming: shows upcoming alerts (e.g., maintenance).

Scrollable screen shows user all existing alerts.
Each alert displays stop information (e.g., stop X at Y location closed).
Dates of the alert (e.g., Monday 1 January - Sunday 7 January).
Impact information (e.g., stop closed due to roadworks, stops affected: 100A).

Horizontal menu (yellow means selected):
Bus: shows all bus service alerts.
Train: shows all train service alerts.
Ferry: shows all ferry service alerts.

(couldn't find bus icon that I liked)

Horizontal bottom menu (green means selected):
Map: app opens to this by default. changeable in settings.
Route: route planning - opens to first screen seen in Task 1 (Route Planning Screen).
Favorites: opens to favorited routes.
Timetable: viewable public transport timetables.
Profile: opens user's profile for personal account settings.
