Profile Screen:
When user profile, the app moves to this screen. The user can view a summary of their public transportation usage, from past trip information to money spent & saved, etc.

User profile picture display & name.

Summary section displays user data. Displayed data includes (but not limited to), past trip information, money spent, money saved, distance covered, etc.

Each section has a name, a main statistic, some more sub-statistics, and a graph.

Tapping on one of these will make a pop-up of the section's in-depth information.
